

PRODUCT MANUAL

Nanjing King-Friend
Biochemica Pharmaceutical

About Us

Nanjing King-Friend Biochemical Pharmaceutical Co., Ltd. (NKF), headquartered in Nanjing, China, is a leading global biopharmaceutical enterprise dedicated to building an integrated platform for internationalization of its high-end injectables and to serve domestic pharmaceutical manufacturers in expanding their business around the globe.

With over a dozen of ANDAs approved in US each year, NKF has grown into one of the biggest suppliers of high-end injectables in the US. NKF is also one of the biggest suppliers of Heparin APIs and finished dosage forms, and is actively working with partners from over 60 countries for over 65 USFDA approved products.

Vision

Building a world-class bio-pharmaceutical company!

Mission

Drive the development of domestic pharmaceutical industry with international recognized drug quality, and seek for a marketing share in the international pharmaceutical market by virtue of international recognized ability, and strive for the health and well-being of society and human beings!

Core value

Striving for health of society and human beings while pursuing the material and spiritual satisfaction of employees!

ONCOLOGY

- Azacitidine for Injection
- ■ Bendamustine HCl for Injection
- Bleomycin for Injection
- ■ Bortezomib for Injection
- ■ Busulfan Injection
- Carmustine for Injection
- Clofarabine Injection
- Cytarabine Injection
- Dacarbazine for Injection
- Dactinomycin for Injection
- Decitabine for Injection
- Docetaxel Injection
- Etoposide Injection
- Fluorouracil Injection
- ■ Fulvestrant Injection (PFS)
- Gemcitabine HCl Injection
- Gemcitabine HCl for Injection
- Ifosfamide Injection
- Leuprolide acetate Injection
- Leucovorin for Injection
- Levoleucovorin Injection
- Levoleucovorin for Injection
- Mitoxantrone hydrochloride Injection
- Melphalan for Injection

- Mitomycin for Injection
- Nelarabine Injection
- Oxaliplatin Injection
- ■ Palonosetron HCl Injection
- Pemetrexed for Injection
- Plerixafor Injection
- Thiotepa for Injection
- Topotecan Hydrochloride for Injection
- Zoledronic Acid Injection

ANTICOAGULANT

- Bivalirudin for Injection
- Dalteparin Sodium Injection (PFS)
- ■ Enoxaparin Sodium Injection (PFS)
- Eptifibatid Injection
- □ Fondaparinux Sodium Injection (PFS)
- Heparin Sodium Injection
- Heparin Sodium Injection (PFS)
- Nadroparin Calcium Injection (PFS)

ANESTHETIC

- Vecuronium bromide Injection
- Bupivacaine Injection

- ■ Cisatracurium Besylate Injection
- Dexmedetomidine HCl Injection
- Neostigmine Methylsulfate Injection
- □ Propofol Injectable Emulsion
- ■ Rocuronium Bromide Injection
- ■ Succinylcholine Chloride Injection

ANTI-INFECTIVE

- Amikacin sulfate for Injection
- Daunorubicin hydrochloride Injection
- Daptomycin for Injection
- Idarubicin hydrochloride Injection
- ■ Micafungin for Injection
- ■ Tigecycline for Injection
- Vancomycin HCl for Injection
- ■ Voriconazole for Injection

CARDIOVASCULAR

- Adenosine Injection
- Alprostadil Injection
- Epoprostenol sodium Injection
- Norepinephrine bitartrate Injection
- ■ Milrinone Lactate Injection
- Nicardipine HCl Injection
- Phenylephrine HCl Injection
- ■ Regadenoson Injection (PFS)

ENDOCRINE

- Liraglutide Injection

DIAGNOSIS

- ■ Isosulfan Blue Injection
- Methylene Blue Injection

GASTROENTEROLOGY

- ■ Pantoprazole for Injection
- Glycopyrrolate Injection
- Octreotide acetate Injection

WOMEN HEALTH

- Calcitonin Calcium Injection
- Cetrorelix Acetate for Injection
- Ganirelix Injection (PFS)

MISCELLANEOUS

- ■ Doxercaliferol Injection
- Desmopressin acetate Injection
- Furosemide Injection
- Glatiramer Acetate Injection
- Haloperidol Decanoate Injection
- Mycophenolate Mofetil for Injection
- □ Thiamine Injection
